

Infrastructure User Regulations
Centre for Computing and Computer Modeling (COiMK)
Version 1

1. The User shall comply with the Administrator's instructions. Failure to comply will result in suspension of the account.
2. Upon completion of the computing project, all data belonging to the User will be deleted. The User is responsible for properly archiving such data before the project's end date.
3. The COiMK resources made available to the User may be used solely for scientific purposes and in accordance with the declared research topic.
4. The User is required to acknowledge the use of the COiMK infrastructure in publications and other works based on results obtained using this infrastructure by including, in the language of the publication, an equivalent of the following statement: "The resources of the Centre for Computing and Computer Modelling of the Faculty of Exact and Natural Sciences at Jan Kochanowski University of Kielce, modernized with funds from the Ministry of Science and Higher Education under the 'Regional Excellence Initiative' program as part of project RID/SP/00015/2024/01, were used in the preparation of this work."
5. The User is required to report all such publications to the Head of COiMK (coimk@ujk.edu.pl) for reporting on the computing project, at least once a year and immediately upon completion of the computing project. Failure to fulfill this obligation may result in suspension of services for the User.
6. Access to the infrastructure is provided via the SSH protocol through access points whose network addresses will be provided to the User after the application for resource allocation has been approved.
7. The User is required to properly secure the account against unauthorized access, including by not disclosing private SSH keys and by applying appropriate access permissions and encryption.
8. The use of resources in violation of the law, as well as any intentional actions that could disrupt the proper operation of the COiMK infrastructure, is prohibited.
9. The User must promptly notify the COiMK Infrastructure Administrator (admin.coimk@ujk.edu.pl) of any known or suspected misuse or security breaches.
10. COiMK shall not be liable for malfunctions of the infrastructure, the accuracy of computation results, or any damage arising from the use of COiMK resources.
11. COiMK does not guarantee continuous availability of the infrastructure. Service quality guarantees apply only when an additional agreement for resource allocation, specifying the terms of their provision, has been concluded.
12. COiMK is the controller of personal data. All information collected about the User, including registration data, is used solely for administrative, operational, monitoring, resource accounting, and security purposes. Such information may be disclosed to providers and administrators of the infrastructure used by the User solely for the purposes specified above.
13. COiMK reserves the right to regulate access to resources without providing a reason.
14. COiMK reserves the right to amend these Regulations.
